Executing on Strategy

Focused Business Banking Franchise with Agribusiness Expertise

- Loan balances increased by \$205.5 million, a 2.8% increase compared to September 30, 2015
- Lending growth focused in Ag and CRE portfolio segments
- Deposit balances increased by \$275.6 million or 3.7%, with deposit growth balanced across business and consumer accounts

Strong Profitability and Growth Driven by a Highly Efficient Operating Model

- EPS of \$0.55 for the quarter compared to \$0.46 for the same quarter in FY15
- Attractive profitability metrics continue: 1.23% ROAA and 16.2% ROATCE⁽¹⁾ for the quarter
- Efficiency ratio⁽¹⁾ of 45.1% for the quarter compared to 48.5% for the same quarter of FY15

Strong Capital Generation and Attractive Dividend

- All key regulatory capital ratios remained stable or increased slightly compared to September 30, 2015 including 10.9% tier 1 capital and 12.2% total capital
- Quarterly dividend of \$0.14 per share announced January 27, 2016; payable February 23 to stockholders of record as of the close of business on February 11

Risk Management Driving Strong Credit Quality

- Net charge-offs for the quarter were negligible (\$0.8 million recoveries and \$0.7 million charge-offs) and the ratio of ALLL to total loans increased to 0.81%
- Loans graded "Substandard" increased by 25.2% compared to September 30, 2015, while nonaccrual loans decreased by 20.4% and "Watch" loans decreased 3.8%
- Management remains comfortable with secondary sources of repayment and overall ALLL levels

(1) This is a non-GAAP measure. See appendix for reconciliation.

Revenue

Revenue Highlights

- Net interest income (FTE) increased by 4% compared to 1QFY15 driven primarily by higher loan interest income and lower interest expense on deposits
- Sequentially, reported NIM remained flat while adjusted NIM (FTE)⁽²⁾ increased by 1 basis point; both measures higher than 1QFY15 because of higher cash balances in that period related to NAB's IPO proceeds on deposit
- Increases in commercial deposit service charges, interchange and other fee revenue sources offset declining OD/NSF revenue (down \$0.6 million compared to 1QFY15)

Net Interest Income (\$MM) and NIM

Noninterest Income (1)

(1) Chart excludes changes related to loans and derivatives at fair value which netted \$(5.5) million for the quarter. Dollars in thousands.
 (2) Adjusted NIM (FTE) is a non-GAAP measure. See appendix for reconciliations.

Expenses, Provision & Earnings

Highlights

- Efficiency ratio ⁽¹⁾ was 45.1% for the quarter compared to 48.5% for the same quarter in FY15 driven by a 4% increase in total revenue (FTE) and a 3% reduction in tangible noninterest expense
 - Net OREO costs declined by \$2.0 million accompanied by declines in occupancy, professional fees and communication expenses, partially offset by higher salaries and benefits
- Provision for loan losses increased by \$0.6 million compared to the same quarter in FY15, leading to ALLL coverage of 0.81%, a 7 basis point increase compared to December 31, 2014

Balance Sheet Overview

Balance Sheet Highlights

- Total loans grew 2.8% during the quarter, focused in ag and CRE
 - Some ag growth results from customers' tax planning and is expected to reverse in 2QFY16
 - CRE growth primarily focused in commercial construction
- Deposits grew 3.7% with growth balanced across commercial and consumer accounts
- All key regulatory capital ratios remained stable or increased slightly compared to September 30, 2015 driven by strong earnings, net of dividends, and partially offset by higher RWAs due to lending growth

(2) TCE / TA is a non-GAAP measure. See appendix for reconciliation.

Asset Quality

Highlights

- Net charge-offs for the quarter were negligible (\$0.8 million recoveries and \$0.7 million charge-offs)
- Ratio of ALLL / total loans was 0.81% at December 31, 2015 compared to 0.78% at September 30, 2015 and 0.74% at December 31, 2014
- Nonaccrual loans declined by \$13.9 million compared to September 30, 2015 driven by payments (vs. charge-offs)
- Loans graded "Substandard" increased but management remains comfortable with workout strategies in place, secondary sources of repayment and overall ALLL levels

Great Western, HF Financial, and certain of their respective directors and executive officers may be deemed to be participants in the solicitation of proxies from the stockholders of HF Financial, in connection with the proposed merger transaction. Information about the directors and executive officers of Great Western is available in Great Western’s definitive proxy statement for its 2016 annual meeting of stockholders as filed with the SEC on January 4, 2016, and other documents subsequently filed by Great Western with the SEC. Information about the directors and executive officers of HF Financial, is available in HF Financial’s definitive proxy statement, for its 2015 annual meeting of stockholders as previously filed with the SEC on October 16, 2015. Other information regarding the participants and a description of their direct and indirect interests, by security holdings or otherwise, will be contained in the Registration Statement and including the proxy statement/prospectus, and other relevant documents regarding the transaction filed with the SEC when they become available.

No Offer or Solicitation: This communication is not a solicitation of a proxy from any stockholder of HF Financial and is not a substitute for the proxy statement/prospectus that will be sent to the stockholders of HF Financial in connection with the proposed merger. This communication is for informational purposes only and is neither an offer to purchase, nor a solicitation of an offer to sell, any securities in any jurisdiction pursuant to the proposed transaction or otherwise, nor shall there be any sale, issuance or transfer of securities in any jurisdiction in contravention of any applicable law. No offer of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933.

Non-GAAP Financial Measures: This presentation contains non-GAAP measures which our management relies on in making financial and operational decisions about our business and which exclude certain items that we do not consider reflective of our business performance. We believe that the presentation of these measures provides investors with greater transparency and supplemental data relating to our financial condition and results of operations. These non-GAAP measures should be considered in context with our GAAP results. A reconciliation of these non-GAAP measures appears in our earnings release dated January 27, 2016 and in Appendix 1 to this presentation. Our earnings release and this presentation are available in the Investor Relations section of our website at www.greatwesternbank.com. Our earnings release and this presentation are also available as part of our Current Report on Form 8-K filed with the SEC on January 27, 2016.

Explanatory Note: In this presentation, all financial information presented refers to the financial results of Great Western Bancorp, Inc. combined with those of its predecessor, Great Western Bancorporation, Inc.

Accounting for Loans at FV and Related Derivatives

Loans at FV and Related Derivatives Great Western Bancorp, Inc.

Overview

- For all loans with an original term greater than 5 years with a fixed rate to the customer, GWB has entered into equal and offsetting fixed-to-floating interest rate swaps with two US counterparties (prior to NAB's divestiture NAB London was the counterparty; all swaps have been novated to a US counterparty)
- Total size of the portfolio was \$1.1 billion at December 31, 2015
- GWB has elected the Fair Value Option (ASC 825) on these loans and applies a similar treatment to the related derivatives:
 - Changes in the fair value of the loans and the derivatives and the current period realized cost (benefit) of the derivatives (i.e., the net pay fixed/receive floating settlement) are recorded in earnings through noninterest income
 - This differs significantly from most peers who have elected Hedge Accounting treatment
 - The historical election is irrevocable so the concept will be present for the foreseeable future in GWB's financial statements *even if* different accounting elections are made on future originations
 - Management presents non-GAAP measures and is including the supplemental disclosures here to provide more clarity on the underlying economics

Summary

	<i>Income Statement Line Item:</i>				
	<i>Net increase (decrease) in fair value of loans at fair value</i>	<i>Net realized and unrealized gain (loss) on derivatives</i>		<i>Net Relationship</i>	<i>Notes</i>
Increase (decrease) in FV related to interest rates	\$ (15,090)	\$ 15,090	\$	-	(1)
Increase (decrease) in FV related to credit	189	-		189	(2)
Current period realized cost of derivatives	-	(5,651)		(5,651)	(3)
Subtotal, loans at FV and related derivatives	\$ (14,901)	\$ 9,439	\$	(5,462)	(4)

(1) Equal and offsetting each period. Changes in the FV of each financial asset and liability driven by current compared to contractual rates.

(2) Management records an adjustment for credit risk in noninterest income based on loss history for similar loans, adjusted for an assessment of existing market conditions for each loan segment. The FV adjustment related to credit is not included in the ALLL but loans are included in the ALLL coverage ratio denominator.

(3) Current period actual cost of fixed-to-float interest rate swaps. Within non-GAAP financial measures, management reclassifies this component to interest income, resulting in adjusted interest income, adjusted net interest income and adjusted NIM, reflecting the underlying economics of the transactions. All else equal, this drag on earnings will reduce as short-term LIBOR rates increase.

(4) While US GAAP mandates the presentation of these items in noninterest income, management believes the residual net amount economically represents the net credit exposure of this segment of the portfolio - presented as a "credit-related charge" in the earnings release and elsewhere (see note (2)) - and the current period derivative cost which should be analyzed relative to gross interest income received from the loan customers (see note (3)) as presented in non-GAAP measures.
